

You see a future for  
your child that is full of  
potential and possibility.  
We see it too!

*Serving students for over 20 years!*

## **WHY CHOOSE ROCKLIN ACADEMY?**

Rocklin Academy schools offer a high-quality educational choice for your children. We believe that all children are capable of high levels of academic accomplishment. Our schools offer a strong curriculum, outstanding teaching, a commitment to high standards, full partnerships with families, and the development of a student's full potential.

## **HOW ARE CHARTER SCHOOLS DIFFERENT?**

Charter schools offer an important innovation in public education. We are performance-based schools that are free from many of the complex regulations that often constrain innovation in traditional programs. In exchange for substantial freedom in governance, programming, staffing and budgeting, our schools are held accountable for student achievement.

### THE ROCKLIN ACADEMY DIFFERENCE

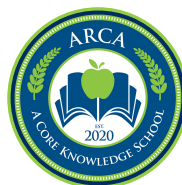

Rocklin Academy was the first public school in the greater Sacramento area to offer the nationally-recognized Core Knowledge curriculum in grades TK-8. At the high school level, we use college-preparatory curriculum to ensure our students are well prepared for their futures. Our schools embody high standards, parent partnership, rich core content, and collaborative use of data, resulting in high-quality teaching and learning in a nurturing environment. Our students' test scores speak to the effectiveness of this method. Year after year, Rocklin Academy's test scores are higher than surrounding school districts. Rocklin Academy has been recognized both locally and nationally.
