

## Thank You Safety Committee

Based on the concerns expressed by many parents, Rocklin Academy PAC's newly formed SAFETY COMMITTEE implemented the school parking lot procedures for drop-off and pick-up of students last week. Parents have given the Committee an overwhelmingly positive response.

In return, the committee would like to thank parents who are working to make drop-off and pick-up a safer place for all students.

As we continue to enforce Rocklin Academy's parking lot rules, please note areas most in need of improvement:

1. Please move ALL THE WAY forward past the cross-walk prior to dropping off or picking up your child.
2. Don't have their backpack in the trunk of the car if you plan to use the Drop-off zone.
3. Please do not park or idle in the fire lane.

The Safety Committee is committed to ensure the safety of every child during high-traffic times on campus. As this program moves forward, parents who violate Rocklin Academy's safety rules and procedures may be ticketed and repeat violators will put their child's re-enrollment at risk.
